And ears like errant wings,  
The devil's walking parody  
On all four footed things

The tattered outlaw of the earth,  
Of ancient crooked will;  
Stare, scourge, deride me; I am dumb,

There was a shout about my ears;  
And palms before my feet.

## Test 15

- Read the following text and answer the questions given below it.

When I went to Argentina four years ago, I noticed that every tree-stump in the pampas was decorated with a strange earthenware construction about the size and shape of a football. At first I thought they were termite nests, for they were very similar to common feature of the landscape in West Africa. When I saw perched, on top of one of them, a small fat and round bird about the size of a robin with a rusty red back and grey front, I realized they were the nests of the oven-birds.

As soon as I found an unoccupied nest, I carefully cut it in half and was amazed at the skill with which it had been built. We mud had been mixed with tiny fragments of dried grass, roots and hair to make it strong. The sides of the nest were approximately an inch and a half thick. The outside has been left crude but the inside had been smoothed to a glass-like finish. The entrance to the nest was a small arched hole. It was rather like a church door. It led into a narrow passage way that curved round the edge of the nest and eventually led into the circular nesting chamber lined with a pad of soft roots and feathers. The whole thing rather resembled a snail's shell.
